Where we win

NO CHARGE CABLE REQUIRED:

LIGHT PLUGS DIRECTLY INTO YOUR WALL MOUNT OR COMPUTER

LIGHT AS A FEATHER:

EACH LIGHT WEIGHS ONLY 37-41 GRAMS

INTERCHANGEABLE STRAPS:

EASY TOOL FREE ON AND OFF ATTACHMENT

100% WATERPROOF

REFLECTIVE FACE:

FOR ADDED SAFETY
Except for "The Face" model which has coloured alloy faceplate)

LONG RUNTIME:

ECO-FLASH RUNS FOR 40+ HOURS

FOR STANDARD AND AERO MOUNTS:

MOUNT DESIGNED TO FIT NEARLY EVERY SEAT POST

5 LED MODELS:

CHOOSE YOUR LIGHT BEAM OUT OF "EYEBALLER" (1 LED - FOCUSED), "FOUR EYES" (4 LEDS - MID), "THE FACE" (4 LEDS - MID), "KID GRIP" (16 LEDS - BROAD) OR "MR CHIPS" (COB LEDS - ULTRA-WIDE)

THE TRUMP CARD: CHOOSE YOUR OPTICS

CATEYE RAPID X FRONT TL-LD700-F

COB technology but less overall light
Low runtime on highest output
Max runtime of 16 hours is short compared to Mob's 60 hrs
Not aero-shaped
Cable required for recharge

SPECIALIZED STIX COMP HEADLIGHT

Quality issues led to recall in 2016
Mounting system not designed for aero posts
Requires a cable for charging
Flashing lights when charging are frustrating

SERFAS UTL-6 THUNDERBOLT USB

Max lumens of only 35 on constant mode
Cheaper but heavier AND shorter battery life
Requires a cable for charging
Mounting system is frustrating and straps are easy to lose

LEZYNE ZECTO DRIVE

USB plug could get messy with mud and dust
Mount looks messy and chunky
Higher lumen count but not worth it for design inconveniences
